When would you like to pick up your package? Date: _____

For Your information:

- Steaks are cut to about one inch / 2.5 centimeters thick.
- Ground Beef is in approximately one pound / 454 gram packages.

Grilling Tips:

100% Grass-fed beef is leaner than Grain finished beef, which means there's less marbling in our steaks. We recommend grilling steaks to medium or medium rare – not more. Err on the side of caution and reduce your cooking time. Let your steak rest a few minutes! You can always return it to the grill if needed.

When we grill steaks, we use salt & pepper and a little oil, nothing else. Striploin and T-bone will be the leanest steaks, followed by Top Sirloin; Ribeye is usually more marbled, so can take a little more cooking if desired.
